November 1, 2017

My Dear Friends,

Dentistry has been my passion and love for many years. I have truly enjoyed the relationships that we have developed and the many memories that you have helped create for me.

As I have often told many of you, my family lives in Florida. Long work hours have limited the amount of time that I have had to visit with my family and especially my parents. A recent illness within my family has made me realize life is too short for all of us. For that reason I have made a decision to leave my practice and move closer to my family.

Recently, I met a dentist who grew up in Southern Indiana and her desire was to return back to her "hometown". Her name is Dr. Hendrix and she is honest and gifted in dentistry and comes with the highest recommendations. My faith leads me to believe that she will be the person to take my practice and care for my patients in the way that I believe that each and every one of you deserve.

Dr. Hendrix will take over the office and patient care immediately. My staff, whom you know, will all be here and available to introduce you. Our goal has always been to treat you the way you want to be treated. That will remain the primary focus of the dental care that you will continue to receive.

I have enjoyed knowing each and every one of you. May your life be filled with nothing but good things. Thank you for the honor of allowing me to be your dentist.

Sincerely,

*Dr. Mike Williams*
